VPI ESD Ongoing Cleaner has been especially engineered to properly clean VPI ESD tile. The pH balanced formula removes alkaline residues and soils that dull along with other contaminants that can act to insulate the floor.

It can be used daily, or as often as needed, to keep VPI ESD tile looking and performing at optimum levels.

It is extremely economical to use and 100% active. It is highly concentrated, biodegradable, environmentally safe, odor counteractant, and has a pleasant fragrance. It can be used for mopping or in auto scrubbers. It leaves no residue and cleans and protects ESD tile. It removes alkaline films.

**SPECIFICATIONS**

- **Fragrance**: Unique
- **Color**: Blue
- **Foaming**: Moderate
- **Flash Point**: None
- **Detergency**: Excellent
- **pH**: 9.5 - 10
- **USDA Rating**: A-4
- **Wetting**: Excellent
- **Biodegradable**: Yes

**DIRECTIONS FOR USE**

Sweep or dust mop the floor to remove any large debris. Never use oil base treated dust mops.

Dilute VPI ESD Ongoing Cleaner (1 part Cleaner : 64 parts water) or 2 oz./gal with cool water. Damp mop or auto scrub using a red pad. Rinse as necessary.

Frequency of maintenance can be daily or on a periodic basis depending on visual requirements, traffic and other site specific environmental conditions.

**NOTE**: It is very important to follow the specific directions for cleaning VPI ESD TILE. Treating it otherwise, can negatively impact visual appearance and electrical performance. IMPORTANT: Never buff in excess of 375 RPM.

**PRECAUTIONS**

KEEP OUT OF REACH OF CHILDREN.

See container and MSDS for safety.
