

PRT Initial Surface Cleaner

EXTREME PERFORMANCE INITIAL CLEANSING AGENT

DESCRIPTION

VPI PRT Initial Surface Cleaner is the second step in the overall VPI PRT Flooring Initial Maintenance System. VPI PRT Initial Surface Cleaner, used in conjunction with the VPI Initial Surface Cleaning Pad (natural in color, with black strands) – micro-cleans the surface of the tile resulting in a great visual appearance and optimal performance. It should be used only after the PRT Initial Deep Scrub process is completed.

USES / BENEFITS

- **Extremely economical to use**
- **High activity**
- **Biodegradable**
- **Environmentally Safe**
- **Micro cleans & conditions**
- **Chemically seals tile**
- **Simple to use**
- **Works fantastic on PRT**

DIRECTIONS FOR USE

After first completing the PRT Initial Deep Scrub process, place the VPI Initial Surface Cleaning Pad (natural in color, with black strands) onto low speed floor machine. Mist VPI PRT Initial Surface Cleaner, using the mist setting on a trigger sprayer, over the area to be cleaned. With the low speed machine, use the initial pass to evenly distribute the cleaner over the intended area to be surface cleaned (about a 10'x10' area at a time) – then begin buffing action.

Buff the area using an even back and forth motion. Approximately 5 passes per row should properly clean the surface but take extra passes to assure complete surface uniformity. Continue the process until the surface of the entire area has been cleaned and is visually acceptable. If desired, repeating Initial Surface Cleaning process a second time will maximize cleaning and appearance.

NOTE: It is very important to follow the specific directions for cleaning VPI PRT TILE. Treating it otherwise, can negatively impact visual appearance. **IMPORTANT:** Never buff in excess of 375 RPM.

SPECIFICATIONS

ColorWater White
 Fragrance Mild
 pH.....11.0
 Coverage.....2,000 sq ft using double application

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN.
 See container and MSDS for further safety instructions.

PRT Earthtones, simply the most durable & beautiful commercial floor on the market today....
