

Analysis of Titanium on Cleanroom Materials by ICP-MS (Revised Report)

Requestor: Wayne A. Usadel
Company: VPI Corporation
Sample Receipt: 5/20/2014
Report Date: 5/23/2014 (05/23/14. Revised to include Sample Details)
Page 1 of 1

WO# F140520027

Sample Description: VPI ESD Solid Vinyl Tile
Manufacture's name: VPI Corporation
Lot number: N/A
Expiration Date: N/A
Instruction for use: ESD Floor Tile

Concentration in ng/in² tile

		Method Detection Limit	Construction Materials Spec	VPI ESD Solid Vinyl Tile
1.	Titanium (Ti)	1	5	<1

Note: The tile was pre-cleaned with 100% IPA-wetted wiper. Then a titanium free dry wiper was used to wipe the tile surface and tested for Ti per Seagate procedure D0000370457_A.
