Rubber Flooring Changes

Dear Valued Business Partner,

Effective immediately, VPI will be making the following changes to our Rubber Flooring Line offering:

1. **Sports Flooring Tile.** Due to lack of demand, production of the Sports Flooring line has been discontinued for both the square edge and the interlocking tiles.

For most sports applications VPI now recommends VPI **Decorative Slate Tile available in 26 colors or Decorative Hammered Tile available in 21 colors, installed, in all instances, using VPI 100 adhesive.** Both formats offer great aesthetics, durability and value and can meet the needs of many sports applications.

2. **Decorative Slate and Decorative Hammered Tile.** Color #727 Rain Cloud has been discontinued due to the close similarity to color #726 Sea Mist.

Due to the lack of demand for these items, we feel that these changes will have no negative impact on your rubber flooring sales. Despite these changes, we continue to offer an extensive rubber flooring line of the most popular selling items.
