

SURFACE CLEANER

FOR USE WITH VPI ESD & PRT TILE

EXTREME PERFORMANCE CLEANSING AGENT

Item O4201QR

DESCRIPTION

VPI Surface Cleaner is the second step in the overall VPI Flooring Maintenance System. VPI Surface Cleaner, used in conjunction with the VPI Surface Cleaning Pad (natural in color, with black strands) – micro-cleans the surface of the tile resulting in a great visual appearance and optimal performance. ***VPI Surface Cleaner should be used only after the Deep Scrub process is completed.***

DIRECTIONS FOR USE WITH VPI ESD & PRT TILE

After first completing the Deep Scrub process, place the VPI Surface Cleaning Pad (natural in color, with black strands) onto low speed floor machine. Mist VPI Surface Cleaner, using the mist setting on a trigger sprayer, over the area to be cleaned. With the low speed machine, use the initial pass to evenly distribute the cleaner over the intended area to be surface cleaned (about a 10'x10' area at a time) – then begin buffing action. **Buff the area** using an even back and forth motion. Approximately 5 passes per row should properly clean the surface but take extra passes to assure complete surface uniformity. Continue the process until the surface of the entire area has been cleaned and is visually acceptable. ***If desired, repeating Surface Cleaning process a second time will maximize cleaning and appearance.***

NOTE

It is very important to follow the specific directions for cleaning VPI Tile. Treating it otherwise, can negatively impact visual appearance and electrical performance. **IMPORTANT: Never buff in excess of 375 RPM.**

SAFETY

CAUTION: May cause eye irritation. Contains glycol ether. Avoid contact with eyes. Wash thoroughly after handling. Do not ingest. **FIRST AID:** IF IN EYES: Rinse with gentle stream. Call a physician if irritation persists.

IF SWALLOWED: Do NOT induce vomiting. Rinse out mouth with water. Call a physician.

INGREDIENTS (CAS No.)

Water (7732-18-5); Acrylic Polymer (N/A); Diethylene Glycol Ethyl Ether (111-09-0); Tributoxyethyl Phosphate (78-51-3); Tripropylene Glycol Methyl Ether (25498-49-1).

SPECIFICATIONS

Color: Clear Green

Fragrance: None

pH: 6.5-7.5

Coverage: 2,000 sq ft using double application
